COUNCIL APPROVES SCHOOL BUDGET

Which Fixes School Tax at $10.60 Per Thousand Valuation—The Aldermen Also Approve the School Board Retiring $13,000 in Bonds —Other Matters Up at Session.

Kingston's school tax this year will be $10.60 per thousand valuation, which, with the general city tax of $33 recently collected, makes the city tax this year for all purposes total $43.60. At a special meeting of the common council held Friday evening the aldermen approved the board of education budget calling for the raising by tax levy of $169,590.-90. The items in the budget were published in The Freeman at the time the budget was adopted by the education board earlier in the month.

The aldermen also gave the education board the necessary permission to retire school bonds amounting to $13,000 which fall due next year, by issuing new bonds bearing a rate of interest not to exceed 4½ per cent, which will be sold at public sale by the city treasurer on March 15 1921.

Mayor Canfield submitted a report covering the disbursement of the $1,000 to be used by the local fire companies during the parade of the H. V. F. A. He reported that of the ten local companies nine had turned out and taken part in the parade, but the Twaalfskill Hose Company did not participate, and for that reason he was returning the $100 which they would have received if they had paraded. The report was received and the $100 will be placed in the city general fund.

The question of properly observing the Fourth of July was referred to the council, which met later in the evening and made arrangements as stated elsewhere.

Frank Ferraro filed an amended petition for permission to operate a bus line between Glasco and Kingston. It was referred to a public hearing to be held later.

The board of public works reported the construction of a macadam pavement in Field Court at a total cost of $3,228.20. Of that amount the board pays 25 per cent or $807.-07, and 75 per cent or $2,241.23, is to be paid by special assessment on board pays 25 per cent or $529.19, by the improvement. Alderman Roosa's resolution adopting the report and that the city assessor take the necessary action to lay the assessment was adopted.

The board of public works also reported the construction of the Hanratty street sewer at a total cost of $2,116.75, of which amount the board pays 25 per cent or $529.19, and the interested property owners 75 per cent or $1,587.56. Alderman Lemister's resolution that the report be approved and the city assessor take the necessary action was adopted.

The council adopted a resolution changing the July session from the first Tuesday night to the evening of July 15.

One of he aldermen then moved to adjourn, but Alderman Martin called for the theater ordinance, stating he wished to introduce it again.

"This is only a special meeting," observed Alderman Roosa, "and it should be laid over to the meeting of July 15."

Aldermen Macholdt and Schick agreed with him and moved to adjourn, which was carried by a vote of 9 to 3.

President Dittus presided with Mayor Canfield and Aldermen Roosa, Schick, Lemister, Leverich, Parish, Kirchner, Kullmann, Macholdt, Higgins, Myers, Martin and Purvis present. The only absentee was Alderman Warren.

THIRD HARDWARE STORE ROBBED

This Times Knives, Cameras, Revolvers, Etc., are Taken from J. W. Feeter's Place in Highland—Authorities Here Aid in Investigation —Same Gang Believed to Have Operated Here.

Some time Thursday evening the store of J. W. Feeter at Highland was entered and goods valued at between $400 and $500 were taken. This is the third burglary of a similar nature to be pulled off in this vicinity in a very short time and as in each instance the goods taken were of the same nature the authorities believe that it is the work of the same gang. Only a short time ago the hardware store of Costello & Dugan on Wall street was robbed and a few days ago a hardware store at Poughkeepsie was entered. The goods taken from the Feeter store consisted of a number of knives, cameras, revolvers and similar articles.

When the robbery was discovered Friday morning Sheriff Smith was notified and Under Sheriff Haulenbeck and Seth Jocelyn, accompanied by Chief of Police Wood, went to Highland to make an investigation. Chief Wood searched the store for possible finger prints.

The burglars evidently first tried to enter the store from the cellar, where they removed a glass from the door and entered the cellar, but finding the door leading up stairs locked as well as the elevator, they abandoned this attempt and went out side in the rear of the store, where they placed empty boxes one on top each other until they could enter one of the upper windows.

About two years ago the store was robbed of a quantity of goods.

The sheriff's men were assisted in their investigation by state troopers and one person who is suspected of knowing something of the matter has been located. It is the belief of the local authorities that the same gang entered the store of Costello & Dugan as the entrance was made from the rear and in much the same manner as that at Highland and Poughkeepsie, and in all three cases a hardware store was selected as the scene of action. In each instance small articles, such as could be easily carried away and disposed of, were taken.

RABBIT HUNTING ON THE WEINBERG

Mystery of Missing Vegetation Solved When Discovery is Made of Raid of Wild Rabbits on The Gardens on West Chestnut Street.

The amateur and professional gardeners on the Weinberg have been wondering lately what ailed the cabbage, tomato, and other plants that had been carefully cultivated in the gardens, and the mystery was finally solved by one of the West Chestnut street gardeners arising an hour earlier than usual and finding a raid being made on his garden by some wild rabbits.

The news soon spread, and it is understood that a mass meeting will sortly be held to devise ways and means of ridding the Weinberg of the pest. There are some mighty hunters, or they were in bygone days, residing in that section of the city, and they will likely make a raid on the city clerk shortly to obtain hunting licenses so as to be on the safe side of the law when they start stalking their quarry.

Lately the mail carriers have noticed considerable literature arriving in Kingston for Weinberg residents from sporting goods houses, and also from kenneis which make a specialty of selling guaranteed rabbit dogs.

Those who have hunted wild rabbits believe that more than a steady eye and a good gun is needed, and that a rabbit dog of proven worth is a necessity.

It is expected that shortly invitations will be issued by Weinberg residents to their friends residing elsewhere in the city to attend in evening dress and partake of a rabbit pot pie.

While the male members of the households are studying the best method to shoot a wild rabbit, the better halves of the families are presenting their cooks with recipes for the best way in which to prepare a dead rabbit for the table.

The problem of what makes a rabbit wild may be a deep one but there is no problem connected with the fact that the raiding rabbits are making the gardeners, both amateur and professional, wild.

Some one has suggested that no harm be done to the rabbits until the game laws are looked into but others insist that the game laws are inoperative inside a man's garden boundaries.

HARDING TALKS WITH ROOSEVELT

Candidate's Attitude on Bonus And Other Policies Can Be Accepted By Veterans Says Former President's Son.

By Telegraph to The Freeman.

Washington, June 26.—Soldier legislation will be an important topic of Senator Harding's speech of acceptance.

The soldier vote will be given careful and tender treatment by the Harding campaign managers and every effort will be made to get them to support the Republican ticket.

Harding conferred for more than an hour yesterday with Colonel Theodore Roosevelt, Jr., who is prominent in the councils of organizations representing the A. E. F. Following that conference the senator devoted hours last night at his home to whipping into shape for his acceptance speech many thoughts he has gathered from conversations with his visitors.

Reports were brought to Republican leaders that the returned soldiers were resentful over the failure of the Republican senate to enact the soldier adjusted compensation and land settlement bill, which was passed by the house in the closing days of the last congress. They are fearful of the loss of the normal Republican vote among these soldiers.

Senator Harding is being held responsible with other Republican leaders of the senate for the failure of the bonus bill to pass, according to these reports. It is understood that discussion of the sentiment of the ex-soldiers towards the Republican ticket, and steps necessary to remove this sentiment, was a feature of the Roosevelt-Harding conference.

It is believed that Roosevelt included his soldier friends when, after the conference, he authorized the statement:

"Senator Harding's ideas as to the policies of this country when he is elected president are such as every young, forward-looking man will indorse in full. Under the leadership of the senator we are going out to meet the issues squarely, to make a fighting campaign with our fighting clothes on."

The nature of the assurances of assistance the former service men will receive has not been indicated by Senator Harding. It is safe to predict, however, that he will stand by his pre-convention position of urging for the ex-soldier fair and just compensation and liberal recompense for their losses during the war.

Efforts are being made by Harding to keep money scandals out of the campaign and to prevent the after-election charge that the election was "bought." His pre-convention campaign was financed on small contributions voluntarily offered by his friends and in large part by his fellow townsmen of Marion, Ohio. He has urged the Republican campaign managers that they keep down the expenditures in the general campaign and that they invite small contributions.

This plan is to be followed by the national committee although Colonel William Boyce Thompson, chairman of the ways and means committee, is of the opinion that the Democrats are preparing to knock the head out of a "barrel" in an effort to retain control of the executive branches of the government and to regain control of the legislative branch.

The Republican campaign will receive contributions in limited amounts. Up to the present time no contributions have been received in excess of $1,000. Colonel Thompson said that some contributions of over $1,000 offered had been declined.

"It is not going to be a campaign that will commit the party to any obligation to moneyed interests or any other single or selfish element in American life," said Colonel Thompson.

Senator Harding broke away yesterday from his weary grind of letter dictation for golf with Senators Hitchcock, Elkins and Hale.

Senators Harding and Hitchcock were joked by their colleagues because Hitchcock is a contender for the Democratic nomination for the presidency. But the senators are personal friends.

DIMICK TRUSTEES LOSE CONTEST

Surrogate Gill Upholds Judge Clearwater's Contention For Widow That Compensation Provided For Executors By Will is Sufficient—Had Received $31,000 Commissions and Asked $8,000 More Under Statute—Is Leading Case.

Surrogate Walter N. Gill has sustained Judge Clearwater's contention and denied the request of Frederick S. Duncan and Ralph N. Voorhis, the executors and trustees under the will of Jeremiah W. Dimick, formerly of Rifton, that they receive $8,000 commissions on turning over to themselves as trustees from themselves as executors, the real estate belonging to Mr. Dimick at the time of his death, and thereby for the first time in Ulster county decided an interesting, important and controlling question of law relative to the compensation of executors and trustees.

There has been one accounting by Messrs. Duncan and Voorhis as executors, and three accountings as trustees. On the accounting in May of this year, the trustees filed a schedule of the real estate which had come into their hands in the cities of New York and Boston and in Ulster county, which were appraised on the transfer tax proceeding to be worth $529,829, stating that this real estate they had transferred to themselves as trustees, and that on that transfer they were entitled to commissions to the amount of $8,000, predicating that request upon Section 2753 of the Code of Civil Procedure as amended by the Laws of 1916. The amendment provides that where the compensation of testamentary trustees was determined by the statute, they were entitled to one-half commissions upon the transfer.

Judge Clearwater, representing Mrs. Altha Covey Beaufort, Mr. Dimick's widow, who in August, 1919, married John Beaufort, on her behalf objected to the allowance of these commissions. He stated that Mr. Dimick by his will directed that each trustee should receive as compensation two percentum on all sums, whether principal or income, disbursed by them as executors, including all sums disbursed annually as income from rents received or interest and income derived from the investment of trust funds. That this compensation was greatly in excess of that provided by law; that the total value of the securities of the estate handled by the trustees was $1,070,000, and the total of the income received and disbursed by them was $475,000; that they had received by way of commissions up until the filing their account on the 8th day of April, 1920, $31,424.04; that the statute was that:

"Where the will provides a specific compensation to an executor, testamentary guardian or trustee, he is not entitled to receive any allowance for his services unless by a written instrument filed with the surrogate within four months from the date of his letters, or in the case of a testamentary trustee or guardian, from the date of his filing his oath he renounces the specific compensation" and insists upon the statutory compensation. That Mr. Dimick's executors and trustees did not file such a renunciation, and therefore in law were deemed to have elected to accept the compensation given them by the will; that there was neither equity, propriety or morality in their attitude. Having elected to accept the greater compensation given by the will, they could not legally add to it the additional compensation given by the statute. Also the judge contended that entirely aside from the question of election, Section 2753 of the Code was amended long after Mr. Dimick's death, that while the statute could change the law, it could not and did not change the will. He said there was a vast deal of confusion of thought in the minds of laymen, lawyers and judges relative to the doctrine of the election of rights and remedies. A man could avail himself of all the rights the law gave him, and up until the time that he became a litigant in a court of justice he could avail himself of all the remedies which the law afforded; that while he could at all times stand on his rights, after he had entered the juridical field as a litigant, he was confined to the remedy he had selected. These trustees first, could accept the compensation given by law, and abandon that given by the will, or, second, they could accept the compensation given by the will.

On the part of the executors it was urged that if Judge Clearwater's contention was sustained in view of the fact that Mr. Dimick's widow was about 24 years of age at the time of his death, and was much younger than either of the trustees, the probabilities were that she would outlive them, the natural probabilities of life, and the experience of actuaries tending to that conclusion. Also they claimed that the whole trend of the will and of their relations with Mr. Dimick during the latter years of his life showed that it intended they should be liberally paid, that he knew they would be called upon to perform intricate services, and to meet unusual difficulties, that the friendly relations existing between them and him, their ages, that of his wife, and the general expression of the will sustained their view. In addition they urged the presumption of law adverse was against any intention on the part of a testator to limit the compensation of his executors and trustees, and that the language of the will giving to them commissions upon property disclosed was broad enough to include the transfer of property.

ESOPUS BRIDGE NOW OBSOLETE

And Will Have to be Replaced With Modern Structure Within Two Years, According to City Engineer Codwise's Report to Board of Public Works—Other Matters.

The Higginsville bridge crossing the Esopus creek is obsolete, and will have to be replaced by a modern structure within two years, according to a report submitted by City Engineer E. B. Codwise to the board of public works at the meeting held Friday afternoon. A copy of the report will be sent to the supervisor of the town of Ulster with the request that he take the matter up with the town authorities so that necessary action may be taken. The city engineer and superintendent were also instructed to take up the matter with the town authorities and make a further report to the board as to what action the town authorities will take in regard to the report.

The report read as follows: "On June 23, I, with James Loughran superintendent of highways and county engineer, made an examination of the iron bridge crossing the Esopus creek between the city of Kingston and the town of Ulster. This bridge had a thorough examination in 1905, and the original floor beams which were found inadequate to support the loads were reinforced by three additional lines of beams.

"This bridge has carried the traffic safely up to the present time. Through neglect, however, it has become very rusty and needs to have all members thoroughly scraped or cleaned of rust or loose paint by wire brushes and thoroughly painted with approved paint in order to prevent further deterioration from rust.

"In my opinion the bridge has a life of probably two more years after which time the board of public works must face the expenditure of money required to replace the bridge by a modern structure. This bridge was erected in 1887, and is now obsolete. The plank bridge floor should be replaced at once."

The board decided, in addition to the regular band music at Kingston Point Park on July 5, to also have a band at Forsyth Park.

City Engineer Codwise reported that the approximate cost of grading Tubby street would be $2,900. The report was filed.

A. W. Buley was reappointed director of physical recreation.

E. L. Longyear requested permission to open Albany avenue at No. 321 to install sewer and water connections for the residence of H. H. Buckley now under construction. It was referred to Superintendent Van Keuren to investigate.

E. O. Allen asked permission to install an 800 gallon gasoline tank in front of his place of business at No. 73 North Front street, which was granted, subject to the usual conditions.

The board then adjourned.

MC ADOO HIGH MAN ON EVE OF OPENING OF DEMOCRATIC CONVENTION

Among Babble of Favorite Sons, Noisy Palmer Boom and Cox Talk "Crown Prince" Is Seriously Regarded By All Delegates—Little Heard of Edwards But If Others Fail Marshall Is Strong Possibility.

By Telegraph to The Freeman.

San Francisco, June 26.—On the eve of the national Democratic convention painstaking survey of the arrived delegates, numbering more than half of the men and women who will sit in the auditorium, reveals the unmistakable fact that William Gibbs McAdoo has failed signally to eliminate himself from this race and that, on the basis of "drafting," without respect to his personal desires, he is the preferred ultimate choice of the majority of delegates here.

That is an outstanding feature of today's convention news, but it is hedged about by many curious circumstances which tend to qualify it and to create a state of remarkable uncertainty which makes prophecy absurd.

No Master's Voice Heard.

No man knows what action the convention will take regarding candidates. There is no audible sound of a master voice. The babble of opinion in the hotel corridors is genuinely confused. There are other candidates to be sure, but it is remarkable that one hears more reasons against their selection than for them, and gossip concerning some of them is unpleasant to the polite ear, family skeletons not being neglected, among other things.

If balloting were to start today with favorite sons "compliments paid off," there would be slight chance of anything like an approach to a choice on the basis of a majority vote, much less a two-thirds predominance which is necessary for selection in a Democratic convention, according to a result of a canvass of delegates made by the International News Service.

Delegates when approached are found glowing with pride and state choice enthusiasm, but when the interviewer gets down to practical politics, the interviewer suddenly finds himself subject of an interview and the question is:

All Ask About McAdoo.

"What do you hear of McAdoo? He'll come through if we draft him, won't he? He is sincere but no man can decline a presidential nomination," and similar talk.

Very intimate friends of the lanky war secretary of the treasury reporting here tell in circumstantial detail of his disposition to shrink from the presidential spot light and denounce as "mean politics" the story that his declination statement was a subterfuge intended to kill off "crown prince" slur and make him not only the choice, but the demand of this convention. These gentlemen tell us that McAdoo's reasons as specified by him are actual and that he is no more sincere in his disinclination to re-enter public life than is his wife, the former Eleanor Wilson, for whom the White House possesses no allurement and whose desire is for obscure contentment with her husband and their two babies.

McAdoo Medicine "Takes Well."

But the gathering vanguard, headed by such men as Senator Carter Glass, are not only discounting McAdoo's public statements, but are actually openly booming his candidacy and the medicine is "taking nicely," according to all surface evidence.

Attorney General A. Mitchell Palmer's forces are the most active boomers here. Palmer is surrounded. He sweeps through the corridors of the Palace Hotel, shaking hands with all comers and maybe the baby parade, with inevitable osculatory consequence, will commence to form within a day or two. Considering the tremendous volume of advertising the Palmer boom has enjoyed old-time reporters seem to feel that it is not good for much strength after early ballots.

Little Heard of Edwards.

The Governor Cox and Edwards enterprise similarly seem to lack "pep," though the former is much discussed. "Oh, I'll nominate Cox," said former Governor James E. Campbell, chairman of the Buckeye delegation. "We will stand by the president and the league but we are ready to accept constructive reservations. We will leave prohibition alone."

There is a little Gerard talk. James McGee, national committeeman from South Dakota, declared his delegation is pledged for the former ambassador and must carry his name through three ballots, at least.

Marshall If Others Fail.

The genial, humorous vice president, Thomas R. Marshall, who delights to talk of Thomas Jefferson and a return to old-fashioned Democracy, is the center of a boom all his own and quite spontaneous in its nature. He does not attempt to conceal his pleasure. Who knows? In the deep dark hours of late night next week or in the week to follow, with all of these delegates homesick and still searching for votes to cast a two-thirds majority and break a deadlock, the name of Marshall of Indiana may be the big fish over the wires.

The folks back home may not have thought of him in that way, but it is not at all out of the possible.

And "Ben there's Davis, ambassador to St. James's court. One hears of him here as a dark horse who would find favor in high international circles. At present the possibility seems remote.

Tammany Busy With Smith.

New York's tower of strength will go for Governor "Al" Smith of that well known state and Tammany is as busy as can be with his boom, just as if it were not the just due of an honored son. Tammany, by the way, will support a "wet" platform if one is reported, delegates talking about a "referendum on the Volstead act." Just which way the tiger will jump on second choice is not vouchsafed by the experienced delegates from New York.

It is declared that 74 of Pennsylvania's delegates are pledged to Palmer. Palmer says so himself.

The south pulls strong for McAdoo. Delegates from North Carolina, Tennessee and Mississippi say unqualifiedly that they are here for the former secretary and for no one else. Alabama's uninstructed force polled 12 for McAdoo, 3 Cox, 2 Palmer and 7 undecided. They all said they'd back up the president. Cox was declared Tennessee's second choice. North Carolina's compliment goes to Senator Furnifold M. Simmons. "McAdoo sentiment is strong in our state," said Senator Harrison of Mississippi.

Iowa For Meredith First.

Delaware will not vote as a unit and almost every delegate has his own man, according to former Senator Sudbury.

Iowa's first ballot of 46 votes goes to Secretary of Agriculture Meredith, who is not without his friends here. If he fails to show strength, the state's vote will be divided among McAdoo, Cox and Palmer.

Montana's 8 votes goes to Governor Stewart on the first ballot and then McAdoo gets them "right through."

Nebraska is uninstructed and the first ballot may show it split four or five ways.

West Virginia is, of course, solidly for Ambassador Davis.

Kentucky is instructed for Cox.

Nevada delegates say that they are for him.

Texas has a unit rule and is claimed for McAdoo, but will switch for Cox if McAdoo fails.

Virginia is for Senator Glass but he is for McAdoo.

Kansas Means Business.

"Kansas is for McAdoo," said Samuel Amidon. "It is uninstructed but means business in that direction. We also have Palmer and Cox in view and Champ Clark is not out of our mind or hearts. We want our former Governor George H. Hodges for vice-president. We are for the president and will vote dry."

Connecticut will cast her ballots for Homer S. Cummings for president, according to Thomas J. Spellacy, and the delegation wants a fight wines and beer plank, he says.

Illinois will give a considerable part of its vote to McAdoo, according to Carter Harrison of that state. There will be scattering support of Cox and Palmer, a wet plank will be urged and the league of nations will be opposed, according to the same authority.

Burris Jenkins of Kansas City, says a majority of Missouri men will vote for McAdoo and the delegation is also split on a wet plank but will "probably support the league of nations plan."

Porto Rico likes Carter Glass; Alaska wants McAdoo; Hawaii will give Cox three and Palmer three on the first ballot.

Women Keen on Picking Planks.

And still they come—delegations pouring in on every train today. Yet no one man knows the name and address of the great man of democracy. It's a good natured convention. Californian sunshine and its wealth of fruit and flowers are tickling the delegates and the city is in the attitude of open armed hospitality. A great flock of women and children accompany the men and politically-minded women are in great numbers, very spirited and urgent with their demands for full recognition. They are even springing planks on their brothers and insisting upon them. Women are playing an important role here. But you can't get one to say there should be a woman vice-president. "Too early to talk of such things," they say, meaning that they want half a loaf now, but they insist on that and it will take the form of planks. By the way, women politicians appear to take to political scandal talk like ducks to water. They are estimating the rough spots of the avowed gentlemen without mincing words. And also they have much to say about "party principles" and "good government."

Going To Johnson City.

Dr. W. T. Rivenburgh of Highland will leave shortly to become associated with the Endicott Johnson Shoe Company at Johnson City. Dr. Rivenburgh will be a member of the medical staff of the company's hospital.

wards of a half million of dollars of real estate from themselves as executors to themselves as trustees as a disbursement within the meaning of the will and of the ecclesiastical and common law.

To this Judge Clearwater answered that he regarded the $31,000 they had actually received together with the amounts which according to their own statement they were certain to receive during their entire lifetime, they having reached the conclusion, a conclusion which it afforded him great pleasure to accept, that Mr. Dimick's widow certainly would outlive them, gave them that munificent and uninterrupted compensation to which they thought themselves entitled.

The case bids fair to be a leading case upon the questions of the election by executors and trustees of either testamentary or statutory compensation.

WHO EVER SAW A GYASTICUTUS?

Circus That Came Here Years Ago Advertised One—Then The Boys Used To Run Out The Saugerties Road To Meet The First Wagon.

"I read in The Freeman a few nights ago that Howe's Circus was coming to town some time in July," remarked an old resdent to a Freeman reporter Thursday, at the court house. "Do you know that before the Civil war, over sixty years ago a Howe's Circus, used to come to Kingston? I remember it well, but it was called Howe's London Snows It was a one-ring affair, with no menagerie, had a clown or jester, and traveled by wagons hauled by horses.

In those days circuses would visit Saugerties, Kingston, Stone Ridge and Ellenville, and the boys would get up three o'clock in the morning and run barefoot as far as the Red House on the Saugerties road and meet the first wagon, which was the one with the center pole, and show the driver the way to the circus lot which was first on Wall street near North Front street and next Chipp's lot on Wall street near Linderman avenue If the circus came in from Stone Ridge the boys would meet the first wagon the other side of Hurley.

Those were the happy days for the boys. I tell you. I can smell the sawdust yet that the circus ring was covered with for the horses to run around on. There was no chariot races then, no parades at the opening of the performances around the outside of two and three rings and a patform as now, and no herd of elephants. The grand entree was in the one ring. Late when Van Amburg's circus came they had a lion carried in a cage and the wagon den was wheeled into the ring as the closing feature of the afternoon and evening show and Van Amburg would put his head into the lion's mouth. Their headquarters was in Amenia, Dutchess county.

There were lots of circuses in the old days that used to visit Kingston, by wagon and in later years a number that traveled by West Shore railroad Of course being nearly eight-five years old my memory in the circus line is not of the best. The circus lots have changed also quite a little. Heard Scott Gillespie tell George B. Styles the day the Sells-Floto Circus was here that he remembered going to a circus on a lot of where the Episcopal Church and the store along where Cohen's clothing store is. his father bringing him in town to the circus from Marbletown. That's right, there was a circus lot there. Among the circuses that came here during the past sixty years, so far as I can remember were S. O. Pierce's International Circus that also had a lion in a den and a man put his head into the lion's mouth. L. B. Lent had a big circus in New York city, and he brought that circus here once the tent being erected on Chipp's lot back of East Front street where Center street runs in and at the rear of the Second Methodist Church, now called the Clinton avenue M. E Church. It had no side show or concert, nor peanut peddlers. Stone, Roston and Murray was another circus, and later John B. Murray's circus. Dan Rice's circus used to come regularly every year and Dan Rice was a great clown. He had big riders such as Bob Stickney. John O'Brien had one of the first big circuses and menageries, traveling by wagons that were hauled by mules.

Bob Terwilliger, George Low, Jim Damond and other Kingston chaps were four-horse drivers for the old time circuses. I forgot to tell you that Levi Snyder, for many years a veterinarian, or horse doctor, first came to Kingston where he settled, with Howe's London circus or shows. He was the veterinarian for the circus and quit the show and stayed stayed in Kingston and got married. Ed Snyder, the ice man is his son. Mr. Snyder a number of years ago had an Arabian horse which if I remember right had seven points. He was a magnificent piece of horseflesh and there are still some of his offsprings in this county. He used to drive a horse without reins, guiding him about the streets and roads with a whip.

Yes there were other circuses that came here besides those I have mentioned. There was George F. Bailey's that was struck by lightning on Van Deusen's commons in 1870. Barnum, Bailey & Hutchinson's, later P. T. Barnum's, Batcheller & Doris, that had as a feature a woman who was shot out of a big cannon, and one circus and menagerie came here and showed on the Field Court lot on Broadway that had a monster hippopotamus that ran around the inside of the tent around two rings. One show came here that advertised a gyasticutus, which was some kind of an animal. The young people don't know what a good show is as they never have seen the white elephant that Barnum had or Jumbo, the big elephant, nor did they ever see Dick Rivers ride bareback, nor Viola Rivers in her great four-horse riding act. What made these riders bigger in the eyes of Kingston people is that Dick Rivers lived on Hurley avenue, and Viola was his adopted daughter. She ran away with George Caron, a French clown Mrs. Rivers, wife of Dick, was a Kingston girl before she got married, being Mag Terwilliger, and she used to do what they called a menage act, that is ride a handsome trained horse that had all kinds of steps, would kneel, lay down and do things the same as you can see horses do with circuses of this day.

In latter days we had Van's Olympic Shows from Saugerties, with Kit James as clown and Hunky Van Leuven on a tight rope. George Main's Shows, George Lee's shows at 25 cents. Bob Hunting's circus that played for a week on a lot back of where the Hotel Ulster stands. Pete Conklin's circus that traveled on brick barges on the river and that had a brass band that rode on horseback. Adam Forepaugh had a big circus, and later it was Forepaugh & Sells circus and it was a whopper. Addie Forepaugh, son of Adam Forepaugh, used to ride forty horses around the outside of the rings. He'd start them on the outside and the sidewall was raised and the horses, with Addie holding the reins and standing on one of the last horses, would dash around the rings at a breakneck speed once and then out of the tent again. It was surely exciting. Another old time show was John Robinson's, and there is still a circus under that name that was in Kingston last year.

Among the great riders whose names I can remember were Jim Robinson, his son, Clarence, Jim Melville and Jim Ducrow. "Of course, I haven't remembered them all," said the old gentleman who was in a circus reminiscent mood, "but the ones I told you about were here anyway If Howe's circus comes here next month, as they say it is, I'm going to see it if I'm well, and Seth Jocelyn has promised to buy the peanuts. I don't want any ice cream cone or cracker jack pop corn, or stay for the concert."

"We Give Notice that on the Second of July we will terminate the privilege of the deduction of one-fifth off our usual prices"—

—See Mr. Wanamaker's signed statement below.

To Do the Right Thing at the Right Time

is not always popular or successful.

Fifty days ago, single handed and alone, we threw down the gauntlet to vigorously fight against holding up war prices for necessities of life and to resist the efforts to legalized corporations and private speculators to not only maintain existing high prices but to serve notice of intentions to demand further advances of prices at points of production.

Without changing a ticket on the regularly priced twenty millions of dollars of merchandise in our stores and warehouses of New York and Philadelphia, we told the people to take for a brief time what they liked at one-fifth less than the usual price, which practically stripped off our profit.

These goods were our own! Why not do what pleased ourselves? We believed then and believe now that it was true patriotism to let our merchandise go without profit, to put up our merchandise at lowered prices as a wall against higher prices, just the same as the wall of Liberty Bonds we took with others was necessary to show the enemies of our nation that we would do our utmost for the public good. Others were free to do the same, had they seen fit. We have no patents on business.

Though the record of our whole business life is clear that we never made baits of books, jewelry, rugs or what-not to attract patrons, and though we stated plainly that for a brief time our trade movement was based upon a great idea of benefit to the public at large, there at once appeared interviews from antagonistic sources published in newspapers and trade papers supported by manufacturers and devoted to their interests. We were also quickly besieged by numerous producers of goods to not sell their goods at less than current prices, as though we were their agents and not merchants working for the public good in a time of great discontent, using the merchandise which we owned and paid for that came to us raised to double and treble prices, from which we lopped off our usual profit in the movement as a beginning to stave off continuance of prevailing high prices.

We have a long list of manufacturers, corporations and "others" who urgently and persistently demanded that prices must be kept up to their standards on pain of etc., etc., etc., the publishing of which would clearly indicate where and how high prices originate and are upheld.

It would be quite contrary to our principles and practices to make this list public, though it added to hindrances in the practical work we have in hand, and we have only this one word to say, that high wages of the labor classes are not entirely to blame for the ruling high cost of living.

Now then and finally

Agreeably to the contract with the public in the first statement given out on the third of May, we now give notice that on Friday, the second of July, with the close of next week, (the Store will be closed Saturday, July 3) we will terminate the privilege of the deduction of one-fifth off our usual prices which we affirm will always be as they have been, just and right, quality considered.

Counting from to-day there remain only the ensuing five days of the privilege of taking our goods at one-fifth off.

We submit we have kept the faith. The invoices we hold of new merchandise that came into our Stores during this great Patriotic Movement show the actual cost, without profit, of $12,224,504, which put into circulation that sum and to that extent relieved the financial stress in certain quarters.

It seems proper to add that the stamp of approval of the measures we adopted, with slight exceptions, has encircled the world and that the insistence first given here that our buyers shall not make commitments for merchandise at advanced prices has been effective for the public good.

By this we shall stand.

The doing of the right thing at the right time, in making a practical protest against combinations holding up war prices and attempting to persist in advances, is a mercantile "Declaration of Independence."

OLD GRADUATES ENJOY SELVES

Academy and High School Alumni Hold Annual Meeting and Dance—New Officers and the Resolutions in Memoriam.

There was a large crowd of old K. A., U. A. and K. H. S. graduates at the alumni meeting and dance at the high school gymnasium on Friday evening.

The grads had come from far and near just to mingle in with their old friends and classmates and have a good old time once more.

The gymnasium had been prettily decorated for the occasion with streamers of red and white crepe paper, Japanese lanterns and red and white balloons. The long streamers were gathered at the center of the ceiling of the gym and then there were more of them from the ceiling to the floor, forming a wigwam shaped bower in which the orchestra was seated. The music was furnished by Curt Shurter's four piece orchestra and was of the usual fine caliber. The dancing continued until an hour after the midnight chimes had struck and the merry makers departed for their homes, having enjoyed a most wonderful evening.

The affair was chaperoned by members of the high school faculty. The chaperones were Prof. and Mrs. C. W. Lewis, Mrs. Witter, Miss Hull, Miss Forst, Miss Schnitzler, Miss Bronson and Mr. Huneke.

About three hundred attended the dance, while there were seventy-five members of the association at the business meeting which was held previous to the dance.

At the business meeting, the following officers were elected for the coming year: President, Alfred Schmid; secretary, Gladys Cashin; and treasurer, Edwin L. Greene. President Schmid presided at the meeting and was re-elected, as was Miss Cashin. The office of vice president was left vacant out of respect to the memory of the late Ruth A. Humphrey. There were many K. A. and U. A. people present at the meeting.

Resolutions in memoriam adopted were:

Ruth A. Humphrey, '16.

With a sorrow that is at once poignant and unspeakable the Alumni Association of Kingston High School decords the death of Ruth A. Humphrey, '16, who has been an officer of the association from its inception and organization until her untimely death on the seventeenth of October, last.

The passing of a friend, a fellow worker or classmate—indeed of any human being never becomes ordinary. Face to face with the mystery of every age, which no genius has ever fathomed—standing before that mystic curtain which no human eye ever pierced, that door to which the Persian poet "found no key," all hearts are softened. But the death of our counselor, associate and friend has moved us to more than the commonplace emotion which such an event occasions. Not that she had been touched with something akin to greatness and wore the mark of it unconcerningly; not that she was the noblest friend of truth and fearless foe of cant and hypocrisy; not that she always assumed the greatest share of the task herself and gave consideration for others more than a passing thought; not for anything that can be set down in mere phraseology or enunciated with the lips, but for something to which her profound sincerity and attributes and stalwart womanhood all pertained—for herself we loved her!

Her high ideals and lofty aims were so manifestly the outcome of absolute loyalty to her every-day convictions of rectitude and the admonitions of her own conscience that she has set a mark for high-minded purpose and endeavor which only the most persistently devoted may hope to attain. In the dignity of her character, the admirable simplicity so potent through every hour, the kindliness and steadfastness present when achievement seemed fartherest off, the heroic courage with which she was wont to defend the convictions she knew to be right, the splendid benevolence and universal love for her fellow-beings marked to the very close of her life laid the essence of the nobility of her soul and made her the most inspiring character we ever knew.

Fearing to trust a weakened body in the active councils of the association, her interest never lagged and this reorganized graduate body bears many a mark of her kindly advice and priceless counsel during the latent days of her illness. We who went out as skirmishers in the early hours can testify to the keen mind she brought to bear upon every problem and know of the consummation of the aims she cherished.

We cherish the memory of that life as a friend, and of its contact with us in the councils of this association; with reverential air we applaud all her splendid accomplishments and lay a wreath upon her bier with sharpened consciousness of the truth that the loss of such a comrade, fellow worker and friend is one of the absolutely irreparable losses in life.

Resolved, that the Kingston High School Alumni Association hereby spreads upon its minutes this expression of the loss it has sustained, and that, as a mark of further respect, that the post of vice president of this association made vacant by her death remain unfilled until the annual meeting in June, 1921, and that when this session adjourns, it do so out of love for the memory of Ruth A. Humphrey, '16.

Ernest Kelder, '17.

Each recurring year brings, it would seem, its toll in death among our membership and in gathering tonight we sense the loss of one of 1917's most honored and useful classmen—Ernest Kelder.

Courteous and primarily a gentleman in his relations with everyone, devoted to his studies in a degree that was singular, yet withal, admirably human, and abounding in that quiet candor that raises up admirers and makes friends without half trying, it seems strange and hard that he should have to go. But bowing to the will of a benign Providence, we have found consolation in his clear vision, broadened sympathies and unsparing devotion to the nobler things of life.

With a smile he struggled valiantly against a bitter, bitter enemy and despite the pain and suffering he must have felt and knew the old-time courage to "grin and bear" stood in the offing till the end. Regretting this penetrating loss, be it

Resolved, that this expression be spread upon the minutes of the Alumni Association of Kingston High School, and that as a mark of further respect that when this session adjourns it do so out of respect for the memory of Ernest Kelder, '17.

Another resolution adopted read as follows:

Whereas, uncontradicted evidence in the hands of the Kingston High School Alumni Association points to an unwarranted discrimination in the social affairs of our Alma Mater in the manner to being admitted to the gymnasium for dancing; and

Whereas, this inane policy has been carried to the unjustifiable and shameful extent of excluding guests of various members of this association to the cutting embarrassment of all concerned save those responsible for the unwise policy; and

Whereas, it has been the tradition of alumni organizations in this city to expect a cordial reception at the hands of undergraduates and the members of the faculty and to count upon being more cordially entertained when a guest was among the party than when alone; and

Whereas, an alumni association of any institution is a force for good and a great aid in a beneficent way to its Alma Mater and because there is no influence in any community more potent and powerful for the accomplishment of good than that of just such an association as is ours—banded as it is to promote the welfare and intensify the interest of the Kingston High School and to preserve and encourage friendship among its graduates and the general welfare of the entire citizenship of the community, therefore let it be

Resolved, that the association in annual session assembled, condemn the practices of the high school faculty in refusing to permit members of this association to entertain a guest at a high school function and brand them as false to the interests of Kingston High School; selfish to its well being; insincere to the glories of the city and its ideals and insulting to a degree of righteous indignation to us; and further let it be

Resolved, that a committee of this association be named that the good name and standards of the Kingston High School Alumni Association may not become a mockery and that these grievances may be redressed to the honor of the association with some commensurate compensation to those of its members who have felt the sting of thoughtless inconsideration.

This last resolution was seconded by five members and passed with an unanimous vote.

R., permanent pastor of St. Stephen's Church, Manhattan, New York, as deacon; the Rev. Joseph Dworzak, D. D., pastor of St. Casimir Church, Yonkers, N. Y., as subdeacon; the Rev. Joseph P. Dineen, secretary to His Grace, the Archbishop, as master of ceremony.

Besides Rev. Francis Lesniewski, pastor of the Immaculate Conception Church, the priests who assisted at the ceremony were: Rev. John Briody, pastor of St. Joseph's Church, this city; Rev. John J. Hickey, pastor of St. Mary's Church, this city; Rev. Walter Henry, pastor of St. John's Church, Clove, N. Y.; Rev. Stanislaw Tenerowicz, pastor of Perpetual Help Church, Hudson, N. Y.; Rev. John Hopkins, pastor of St. Charles Borromeo Church, Gardiner, N. Y.; Rev. Peter Spellman, pastor of St. John's Church, West Hurley; Rev. Edward Higgins, pastor of St. Peter's Church, Rosendale; Rev. Patrick Lyons of Boston; Rev. George Vaeth, pastor of St. Ann's Church, Sawkill; Rev. John DeKrom, chaplain at Benedictine Sanitarium; Rev. Joseph Ostermann of St. Peter's Church, this city.

After the impressive and inspiring ceremony at the church was over, a reception was tendered at the rectory in honor of His Gace and the reverend clergy.

The new bells are perfect examples of the bell makers' art manufactured by the well known Meneely Bell Company of Troy, N. Y. They will become historical in the Catholic Archdiocese of New York because of the fact that they are the first bells upon which the name of His Grace Most Rev. Patrick J. Hayes, the present Archbishop of New York, is cast and these were the first bells which were consecrated with full ceremony by His Grace, the youthful and competent Archbishop of New York. The bells are an asset to that section of the city and a pride to Father Francis and his parish of the Immaculate Conception.

The bells were elevated to the tower Friday afternoon by Meneely Bell Company and they will tomorrow for the first time call the faithful to worship God in the Church of the Immaculate Conception.

KINGSTON LEADS.

Wherein Newburgh Falls Short of Educating Its Young.

Despite the difference in the population of the cities, Kingston High School graduated 16 more students than did the high school at Newburgh.

Commenting in its editorial columns on this situation the Newburgh News states:

Though Kingston is almost 5,000 behind Newburgh in population, the graduating class of its High School this year is composed of 85 young men and women, compared with Newburgh's 5[illegible] Academy graduates. Reference to annual reports of the State Education Department show that Newburgh's record for High School attendance and graduation is below the average for cities of its class. This is a situation that has existed for a long time. It is a serious matter and ought to have the consideration of those interested in our educational system. High School accommodations are inadequate and until they are made what they should be it will be impossible for High School instruction to attain the magnitude which a community of the [illegible] and importance of Newburgh should be able to boast.

To Raymond Riordan School At Highland.

Beckwith Havens, the Red Hook aviator and Jack Davies will pilot a hydro-aeroplane from New York to the Raymond Riordan school at Highland, Tuesday making their landing on Chodikee Lake. Because of the size of the lake, the trip will hold considerable interest for airmen, and a successful landing will go far toward demonstrating the practicability of the use of hydroplanes on small bodies of water.

WITH

Violet Hemming, Theodore Roberts and Wanda Hawley

Woman! Seeking love! Blinded by flattery and sudden fame on the stage. Following wealth. Following passion. Singed by the lights of the midnight rendezvous of fashion.

Beauty stolen. Modesty lost. Conscience abandoned. The wine of the gilded cafes drained to the dregs of the slums. Then in the driving snow of a New Year's Eve, a new white path that leads to her heart's desire.

This is "Everywoman"—a vivid, spectacular beauty-drama of the old, old story—up to the second. Hundreds of thousands spent on the sumptuous sets. Played by an all-star cast of principals never equaled in another motion picture.

KINGSTON, N. Y., JUNE 26, 1920.

Glenn E. Plumb has invested $25,000 in a palatial home at Chevy Chase, a fashionable suburb of Washington. Apparently Mr. Plumb's vigorous advocacy of economic fallacies keeps his pockets well filled, which may convince him that their adoption would do the same for everybody else.

Senator Harding's attitude toward labor is attested by his record with the employes of his newspaper at Marion, Ohio. There has never been a strike in his shop, but that does not mean he believes in servilely acceding to every demand of labor. He was one of those who voted for the anti-strike clause of the Senate railroad bill.

For more than 130 years the archives of the British government have contained a copy of the United States Constitution. During all that period Great Britain has had at the seat of government in the United States representatives of high character and ability who presumably made it their business to inform themselves regarding our form of government and its practical operation. British diplomats are not in a position, therefore, to plead ignorance of the legal methods by which treaties may be ratified. When the representatives of the British government participated in the negotiation of a Treaty of Peace which included a League Covenant they did so knowing that that treaty could not become effective until it had received the approving votes of two-thirds of the membership of the United States senate. They also knew that thirty-nine members of the senate had deliberately appended their signatures to a formal notice to the president and to the world that they would not support a league covenant such as that which President Wilson had framed. They are in no position to pretend that they were misled by the representation of President Wilson that he had authority to bind the United States.

NEEDS NO APOLOGY.

Apparently the Democratic press can find nothing whatever to approve either in the nomination of Senator Harding as Republican candidate for President, or in the manner in which the nomination was brought about. Our Democratic contemporaries will find however, that the rank and file of the Democratic party are less disposed to carping criticism, and that hundreds of thousands of substantial citizens who have voted the Democratic ticket in the past will support Mr. Harding in 1920 in the confidence that by his election and the establishment of a Republican administration, orderly government will be restored and the period of hysteria will be at an end.

One complaint made by the Democratic leaders is that the compromise in the Republican convention was brought about through conferences in which members of the United States senate were chiefly active. Most of the senators who participated in the conference were duly elected members of the convention. They were there, therefore, not only by virtue of the votes of their constituents in the recent primaries but bearing also the expression of confidence which goes with election to membership in the United States senate. In a situation which called for conference and compromise in an effort to harmonize differences, there could have been chosen no members of the Republican party who were better qualified to act wisely than those members of the convention who were also members of the United States senate or the house of representatives. Instead of casting doubt upon the wisdom of the selection made, the Democratic leaders really strengthen the belief that the Republican convention acted under wise leadership.

The Republican nomination was made by an overwhelming majority of the delegates through a conference and compromise perfected by a large number of the duly chosen spokesmen of the Republican party. The Democratic nomination at San Francisco will be made in strict accordance with [illegible] issued from the White House by a man who has been out of touch with American public affairs for more than a year and whose thoughts have been centered chiefly upon the welfare of Europe. In the matter of methods, the Republican convention will not suffer from any comparison with the work of the convention at San Francisco.

FIREWORKS IN PARKS JULY 5

Fourth of July this year falls on Sunday, but will be celebrated on Monday, and Friday evening the common council meeting as a committee of the whole made arrangements for appropriately celebrating the holiday in Kingston. Last year the celebration consisted of fireworks at both Kingston Point Park and Forsyth Park, and this year's celebration will be similar.

Mayor Canfield called attention to the fact that the board of public works would have a band at each park on the holiday. He said there was $300 in the fund set aside for celebrating the day and suggested that a fireworks dispay be held at both parks.

Alderman Macholdt at first suggested holding the display back of the high school but it was thought that the noise would interfere with the hospitals, and the alderman from the Ninth ward moved that a committee be appointed to spend the $300 for fireworks, $150 to be used at each park. The motion was adopted unanimously and President Dittus appointed the supply committee of the common council.

This committee met later and awarded the contract to William O'Reilly, who furnished the display last year.

It was decided best not to have any oratory at either park but to devote the evening to an appropriate musical concert by the band and the fireworks display.

A Little More Than Kin.

Last year I asked my best girl to become my wife, and she said "No." But I got even with the girl. I married her mother. Then my father married the girl. Now I don't know what I am. When I married the girl's mother, the girl became my daughter, and when father married my daughter, she was my mother. Who is the darkest am I? My mother's mother (who is my wife) must be my grandmother and I being my grandmother's husband am my own grandfather.—Pittsburgh Chronicle Telegraph.

Rivers That Are Salty.

There is a salt river in Australia, and another, the Rio Salado, in the Argentine Republic in South America. The Athabasca river of British North America has two important salt branches, one of which rises in a natural salt spring and the other has its source in the Caribou mountains, which contain vast deposits of salt rock. Another salt river, having its origin in a similar formation, is one of the tributaries of the Great Slave river.

Y. M. C. A. CAMP FEW DAYS LATE

The annual berry picking camp which has been conducted under the direction of the Boys' Department of the Kingston Y. M. C. A., was scheduled to open on Monday, June 28, at Highland, N. Y., but on account of the rainy weather and late season the currants on the farm where the boys will work will not be ripe enough to pick until the middle of the week and the boys and camp leaders decided it would be best to wait until that time. The boys will meet at the Y. M. C. A. Monday afternoon at 2 o'clock to lay all their final plans for leaving. The baggage must be at the Y. M. C. A. not later than Monday as the truck will take it to camp Tuesday morning early when the leaders will set up the camp.

The boys will go down to the camp either by bicycle or on the day boat leaving Kingston Point at 12:40 on Wednesday, June 30. They will all meet at the Y. M. C. A. at 11:30 Wednesday morning before leaving for final instructions. The boys on bicycles will go under the leadership of Mr. Bridges, the boys' work secretary at the Y. and the boat riders will go with Mr. Dillinger, the physical director.

Any boys who have not already signed up to go may do so this week or on Monday, if they arrange to get their baggage at the Y. M. C. A. in time.

LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Mrs. George Emmet Snyder died suddeny at her home in Saugerties, Thursday evening. Her husband survives her.

Mrs. Millie R. Shull, wife of the late John E. Shull, a former principal of Ulster Academy, died this morning at the Kingston City Hospital following a brief illness. She is survived by one son, Huber, of Yama Farms, Napanoch, and one sister, Miss Sarah Huber of this city. Mrs. Shull by her genial disposition endeared herself to all of her many friends. The funeral will be held from the residence, 155 Highland avenue Tuesday afternoon at 2:30 o'clock. Interment in Montrepose cemetery.

There will be very genuine grief in many and many a home in this city and county when it is learned that Miss Anna O'Shea, R. N., after putting up a most courageous fight for her life at Saranac for over a year, died in this city on Friday afternoon. Miss O'Shea, who was a gradunte of the Benedictine Sanitarium, early became especially interested in the care of tubercular patients, and when the Red Cross was first formed in this city and took up the sale of Christmas stamps to undertake tuberculosis work in the community, Miss O'Shea was chosen as the first visiting nurse. In order to be especially fitted for her work, she took a special course in tuberculosis treatment and nursing at St. Luke's Hospital, New York city, and then returned to her home town to take up her beautiful and self-sacrificing work. Possessed of an unusually charming personality, a rare sympathy and tact, and a love for her work, Miss O'Shea quickly endeared herself to the people wherever she went, and the Ulster County Tuberculosis Committee today owes a great debt of gratitude to Miss O'Shea for having paved the way, educationally, for the work which this committee took up after the Red Cross turned it over to the State Charities' Aid Association. She was the first superintendent nurse of the Tuberculosis Hospital and always here beauty of spirit as well as of face, won the hearts of those with and for whom she worked. Alas! her zeal was greater than her strength, and she finally fell a victim to the frightful disease she had been so valiantly fighting in and for others. Truly it can be said of Miss O'Shea, "Greater love hath no man than this, that he lay down his life for his friend," and to Miss O'Shea all who were sick and in need were her friends. About two weeks ago she was brought back to Kingston from Saranac to be among her friends until such time as she might be strong enough to be taken to the Catskills. She no longer needs the "hills from whence cometh my help," for she has mercifully been spared further suffering. Miss O'Shea is survived by her father, John O'Shea, formerly of this city, now of Hartford, Conn., and a brother, Robert and sister Doris, of the same place. The funeral will be held from the chapel of A. Carr & Son on Monday at 10 o'clock and from St. Joseph's Church at 10:30 o'clock, when a high mass of requiem will be said for the repose of her soul. Those wishing to see Miss O'Shea may do so by calling at the chapel of A. Carr & Son.

SOLDIER BOYS FORFEIT GAME

Friday evening but six of the members of Company M ball team showed up at Forsyth Park for the scheduled game with the U. & D., and Umpire Art Rice declared the game forfeited to the railroad team. Under the rules of the Twilight League adopted at the opening of the season a team has to have at least eight men on the field when the game is called.

In order to please the fans, however, an exhibition game was staged when the regular U. & D. team took the field against a club made up of the Company M players present and players of other teams in the league. The game only went five innings however. There is no game this evening, but Monday evening the Y. M. C. A. is scheduled to play the Tigers at Forsyth Park.

Juvenile Hermit.

Amos was a quiet, staid child, inclined to be too much by himself, his mother thought. Seeing him staying in the back yard alone she asked him why he didn't go and play with some of the other boys occasionally. "Well," replied the child, "they disturb my thinks. I like to be all me with me."

KYSERIKE.

Kyserike, June 25.—Mr. and Mrs. Thomas Coutant of Highland spent Sunday with A. J. Oakley and family in this place.

Mr. and Mrs. J. T. Depuy and son, Arthur, spent Sunday with Mr. and Mrs. Myron Depuy at Kingston.

A number from this place are attending the services at the M. E. Church at Accord by Rev. W. E. Voight on Sunday evenings. These meetings are very interesting and are well worth going many miles to hear, as Mr. Voight is a very fluent speaker and explains his subjects so fully a child can follow his discourse from beginning to end. Everybody is welcome.

L. J. Hames and family attended the Knights Templar convention at Newburgh on Tuesday. Cyrus Depuy of the Accord station force attended to this station for the day.

Strawberries are very plentiful in this place and pickers are numerous.
